HIGH SPEED AND MORE FLEXIBILITY

Thanks to PAK cloud and PAK device cloud technology

- Fast provision of data from multiple devices
- Mobile access – everywhere
- Easy measurement data management

In a word: PAK testbench means for standard NVH applications
Bringing mobility into test benches everywhere.

A decisive step into the future of vibroacoustic fingerprints

HIGH SPEED AND MORE FLEXIBILITY

Thanks to PAK cloud and PAK device cloud technology
• Fast provision of data from multiple devices
• Mobile access – everywhere
• Easy measurement data management

HIGHEST DEMANDS ON MOBILITY

Enabled through direct interaction thanks to PAK live technology
• Seamless communication between frontend and PAK testbench
• Check and reconfigure the measurement settings on the fly
• Enables prompt feedback
• Effects of configuration changes can be seen right away

In a word:
PAK testbench means for standard NVH applications
